

TOWARDS SCIENTIFIC EXCELLENCE AND INTERNATIONAL LEADERSHIP

Training programme in
strategy and operations
management for centres of
excellence in research
(GESC&GOSCI)

GOSCI

XUNTA
DE GALICIA

COMBINING STRATEGY AND TALENT

Do you want to guide your research centre towards scientific-technological excellence and international leadership?

Are you able to anticipate changes and align your organisation with international standards of excellence?

Do you know how to build long-term competitive advantages and develop the talent your organisation will require in the future?

An initiative promoted by the Department of Education, Science, Universities, and Professional Training of Galicia, in collaboration with Feuga, consisting of two programmes:

Specifically targeted and designed for professionals working in the field of research

Aimed at ensuring the ongoing improvement, excellence and international leadership of Galicia's research centres

It includes a teaching panel, made up of Spanish and international professionals who are leading authorities in their areas of expertise

**A UNIQUE PROGRAMME THAT
ADDRESSES THE CURRENT CHALLENGES
FACED BY RESEARCH INSTITUTIONS**

Objectives

GESCI Directors

- ▶ To enhance their strategic vision to address new challenges in the environment and the increasing international competition in securing resources, talent, and opportunities
- ▶ To promote the efficiency of their organizations and to drive scientific and institutional evaluation as a key mechanism for continuous improvement

GOSCI Managers

- ▶ Optimise internal management and align your organisation with international standards
- ▶ Contribute from your area of activity to the scientific-technological excellence and leadership of your institutions

Recipients

- ▶ Centres accredited for excellence and recognized as members of the CIGUS Network
- ▶ Centres recognized as collaborative research centres (on the path to excellence)
- ▶ Officially accredited specialized campuses
- ▶ Universities included within the Galician University System (SUG in Spanish)
- ▶ Public Research Organisations (OPIs in Spanish), technology centres, and the Spanish National Research Council (CSIC in its Spanish initials)

The number of places per entity is limited.
More information at www.gesci.es

A UNIQUE PROGRAMME WITH COMMON OBJECTIVES... AND 2 TRACKS ACCORDING TO THE PARTICIPANTS' PROFILES

POSITIONING

Where we are. The scientific-technological context

STRATEGY & ASSESSMENT

Where we are headed: designing strategies for centres

GOVERNANCE

Getting started: governance, organizational structure and management models

FUNDING

What we need: financing and fundraising

PEOPLE

Most important of all: the people

MANAGEMENT

And now... How to go about it: working towards effective and productive operational management

WORKSHOPS

GESCI

- ▶ Scientific and institutional assessment
- ▶ María de Maeztu Call
- ▶ The Impact on Research

GOSCI

- ▶ Creation and Management of Spin-off Companies
- ▶ Creativity: How to Generate Innovative Proposals for Projects
- ▶ Institutional Assessment
